- LIST OF 2016 RMHC VOLUNTEERS • PAGE 10
Volunteers are the HEART OF OUR HOUSE
Step inside our House and you will find a team of dedicated volunteers who give the gift of their time every single day. They come from all walks of life, but they all share the same passion: to care for the families that rely on our House during difficult times. We are honored to be highlighting the amazing individuals who help make our House a home through their generosity. It takes over 40 volunteers daily, and 550 volunteers annually, to successfully make the House run smoothly. Our volunteers embody the ideal that a small, dedicated group of individuals has the power to make a difference in the lives of others. They are truly the heart of the House, and on behalf of RMHC, we would like to extend an enormous thank you to each and every one of them!

The 1,000 HOUR CLUB

We are very excited to introduce the 1,000 Hour Club, that officially launched in 2016. Currently 18 individual volunteers have over 1,000 documented service hours at RMHC. This group encompasses a number of different volunteer roles and several of them started volunteering in 1984 when the House first opened. The helping hands and loving hearts of these volunteers ensure our families are provided with a comforting place to call home during their time of need. We are truly grateful for the gift of their time and we are lucky to have them as part of our family.

Volunteers whose names are listed with a heart ♥ in this issue of HomeWord have completed 1,000+ hours.
Baby Zylah’s BROKEN HEART

The Ronald McDonald House helps keep three little girls close to their new baby sister while she is treated at the hospital.

Zamiyah, Zariha, and Zaliyah know the Ronald McDonald House as well as they know their own home. The girls gleefully trip over one another to reach the playroom first and grin ear-to-ear at the mention of the Magic Room. They'll chat with anyone who asks a question and sometimes they don’t even wait for an opening. And if you ask them about their favorite part of the House, all three will agree with mom and dad: getting to see baby Zylah every day.

These little girls will tell you their sister has “a broken heart.” Porchae found out something was wrong at her 20-week ultrasound. The baby had a congenital heart defect (CHD) and would need immediate surgery after birth. In fact, that initial heart surgery was to be one of three anticipated surgeries to repair the defect and delay the need for a transplant. There was also an additional challenge - Ryan, a military husband and father, was across the country at boot camp. With three busy girls under six at home that needed her attention and Ryan away, Porchae tried to find a balance between optimism and preparing herself for the possibility that they would not get to take this new baby home.

Zylah was born in August with a full head of hair and a blue tinge to her skin, but she was doing better than had been expected. Well enough to wait a few days before tackling the first surgery so she could grow as much as possible. However, along with CHD, Zylah has heterotaxy; her organs are not all where they should be. Her anatomy is so complicated that the three-part plan for surgeries was tossed-out when the first surgery was complete. Zylah was now a top-priority heart transplant candidate.
Over the last six months, the family has been waiting for a heart for Zylah, patiently working through each complication that arises. One such complication is aggressive antibodies. Like all babies, Zylah was born with antibodies from mom. These usually dissipate within the first few weeks after birth as a child builds their own immunity, but Zylah and Porchae's shared antibodies had not gone down. These antibodies are very specific and cause a higher risk of rejection of a transplant organ. Combined with her newborn size and these antibodies, Zylah's options as a transplant match were limited to 1 in 100. She has had two additional open-heart surgeries in the past few months to further open her pulmonary veins, fix her mitral valve, and route blood flow all in the hopes of buying more time. Most recently, they were able to do plasmapheresis during their last open heart surgery. Combined with her steady growth, this plasma exchange procedure allowed them to remove enough of the difficult antibodies in Zylah's blood to open up new opportunities for transplant – they now have a 1 in 10 chance of finding a heart that is a viable match for Zylah.

Despite the infection that lingered from this last surgery and worries over kidney and liver function, these new odds have revived the Greens' hope of finding a great match for Zylah. Until that day comes, the Green family continues to wait, traveling between their house and our House as much as the demands of daily life allow. “I don’t know what we would do if the Ronald McDonald House wasn’t here. You have no idea what you’re going into... the up and down emotions. The support- we have amazing friends that we have made here. This is our family for our daughters and for us when we are here.” Zylah's sisters would also agree with mom and dad about that- as long as they can check on baby Zylah, as long as they can see that she is ok today, then they are happy to head back to their RMHC family after each visit.

"YOU HAVE NO IDEA WHAT YOU'RE GOING INTO... THE UP AND DOWN EMOTIONS... THIS IS OUR FAMILY FOR OUR DAUGHTERS AND FOR US WHEN WE ARE HERE."
Koos for Kids

Marcus Hanel and his wife, Jill, are passionate about their family, their faith and making a difference in the community, so in January of 2005 they started their own foundation—“Koos for Kids.” After a visit to the House last summer with the Brewers, they embraced our mission and wanted to help our families. The foundation provided not only much-needed Target gift cards, but also a beautiful 70-inch flat screen TV for our Family Gathering Room. Movie nights are bigger and better than ever thanks to their generous support!

Menasha Corporation

Menasha Packaging and Menasha Corporation Foundation have been strong supporters of our mission for over 16 years! The company’s commitment to building stronger communities extends beyond the borders of Menasha to our Ronald McDonald House Community. We are proud of our partnership, which includes financial support, our music room which proudly bears the Menasha Packaging name, sponsorship of our events, auction item donations, wish list drives and last but not least, the printing of our Pop Tab Houses! They have provided over $70,000 of support over the years and we are grateful for their ongoing commitment to giving back!

Aaron’s Ride

Three countries, three states, in three weeks. This past summer, Aaron Coenen traveled from Canada to Mexico, over 2,000 miles, on a bike! His goal? To raise awareness and funds for RMHC Eastern Wisconsin and Madison to keep families close. In preparation of his West Coast #ride4RMHC, Aaron went in to get a clean bill of health and, much to his surprise, found out a second surgery was required to remove the recurring brain tumor he had five years prior. Aaron’s a crazy cheesehead that enjoys cycling and understands what it’s like to stay in a hospital for an extended period of time. Thanks to his support, Aaron has generated over $15,000 for RMHC Eastern Wisconsin and Madison.
Ronald McDonald House

BENEFITS AND IMPACT

The Ronald McDonald Houses’ proximity to hospitals provides important benefits for children and their caregivers, such as improved psychological well-being and better perceptions of their child’s recovery.¹

Parents whose children have longer hospital stays benefit from higher quality sleep at a Ronald McDonald House compared to parents who slept at their child’s hospital bedside.²

Ronald McDonald Houses can provide an alternative for patients who need to remain close to the hospital for extended periods but do not require active daily medical care.³

References

A Safe Space for Caroline

Three-year-old Caroline is the youngest of three girls for Stacy and Kyle. At first glance it appears she is like any other baby of the family with a mischievous twinkle in her eye and a giggle that never stops.

However, Stacy will tell you she knew something was wrong right away. After months of advocating, they learned Caroline had a heart murmur. Tests revealed a hole in her heart and the need for open-heart surgery. They thought a successful surgery would be an end to their questions, but in reality it was just the beginning. Caroline still faced motor and speech delays, nutritional support needs, and autonomic testing to discover more about her issues.

Knowing there is not a set treatment for Caroline, the family works with her medical teams to manage on a day-by-day basis. The constant in Caroline’s story has been the Ronald McDonald House. As Stacy shared, “For Caroline, it’s her safe place. She knows that all of the tests aren’t going to happen here. When we get done with appointments, she asks if we’re going to ‘Ronald Donald’s House now.’ It’s always, always her safe place.” In 2016 alone, Caroline and her family experienced 16 different stays at the Ronald McDonald House. There’s always hope the day will come when Caroline no longer needs to travel to Milwaukee, but as long as families need a safe space, the House will continue to keep families close.
THANK YOU RMHC VOLUNTEERS FOR YOUR HEART WORK

We are so grateful for each and every one of our volunteers and the work they do each day to keep our families close!

Over 550 Ronald McDonald House volunteers share their time and talents to make sure that the families we serve can stay close to their children while they receive medical treatment at a local hospital. Volunteers are crucial in making our House a place of comfort, hope and family. From light housekeeping duties, to assisting in the front office, or taking children and their families to the Magic Room, volunteers truly make our House a home. We are so grateful for all of our volunteers. If you are interested in volunteering, take a look at some of the different opportunities we have at the Ronald McDonald House:

**Hospitality Volunteers**
Volunteer duties include laundry light housekeeping, organizational duties, welcoming guests and assisting with check outs. Commitment is one 3 hour shift every other week. Must be 14 or older.

**Van Drivers**
Van Drivers make trips to and from local hospitals, run errands and assist with other House duties. Drivers are required to have a valid driver’s license and clean driving record. Commitment is one 4.5 hour shift at least once per month. Must be 21 or older.

**Kitchen Keepers**
Kitchen Keepers perform a variety of duties to ensure that the House kitchens are clean, well organized and stocked appropriately. Commitment is one 3 hour shift every other week with some flexibility. Must be 14 or older.

**Office Assistants**
Office Assistants perform a variety of duties such as answering phones, greeting and welcoming guests and helping with office work. Commitment is one 4 hour shift every other week. Must be 18 or older.
Liz and Emma are a mother-daughter duo that serve as Hospitality Volunteers. Liz inspired her daughter, a junior at D.S.H.A. High School, to give back to RMHC!

Niki and Donna have been volunteering at RMHC for over 10 years! They each had their start as a Hospitality Volunteer, but are now in charge of keeping the Magic Room stocked and organized.

Paul has been a Van Driver since 2010. When he’s not taking families to and from Children’s Hospital, he takes on extra projects around the House.

Since 2014, Christine has volunteered at RMHC every other Friday morning. She is currently enrolled in online classes through Wisconsin Connections Academy.

Before their shift, Mitzi, Carolyn, Mary, Nettie and Barbara enjoy lunch together. After completing their Hospitality Volunteer duties, the group often makes Lunch-2-Go items for our guest families.

Family Meal Program
Help provide our families with a home cooked meal by preparing and serving family dinners, weekend brunches, Lunch-2-Go or Snacks from Scratch. This program allows groups of 4 to 15 volunteers the opportunity to contribute to keeping families close.

All individual volunteer opportunities require at least a one year commitment. Please visit RMHC HOME.org/how-to-help/volunteer to complete a Volunteer Application.
Our 2016 VOLUNTEERS

Our volunteers go above and beyond to help keep families close while their children are receiving medical treatment and we couldn’t do our work without them. Whether they are preparing and serving a meal to our families, performing light housekeeping tasks, welcoming guests or spreading the word about our mission in the community, they help make our House a home. We are so lucky to have our many volunteers and are grateful for each and every hour they spend with us, but unfortunately we do not have the capacity to list them all below. Please forgive any error or omission.

Help us keep our mailing information current!
Clip and return mailing label to us with your corrections or e-mail your change to gryack@rmhc milwaukee.org.

It costs $90 per night for a family to stay at RMHC, yet we suggest our families make a donation of just $20 a night. No family is ever turned away for their inability to pay. Your ongoing support is a major reason why.

Thank you for your generosity!

Our Mission: Ronald McDonald House Charities® Eastern Wisconsin keeps families together while their children are receiving medical treatment at local hospitals.
